# CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD CENTRAL VALLEY REGION

# MONITORING AND REPORTING PROGRAM NO. FOR CITY OF BAKERSFIELD FOR CLOSURE AND POST-CLOSURE MAINTENANCE CITY OF BAKERSFIELD SANITARY LANDFILL KERN COUNTY

Compliance with this Monitoring and Reporting Program, with Title 27, California Code of Regulations, Section 20005, et seq. (hereafter Title 27), and with the *Standard Provisions and Reporting Requirements for Waste Discharge Requirements for Nonhazardous Solid Waste Discharges Regulated by Title 27 and/or Subtitle D (27 CCR §20005 et seq. and 40 CFR 258)*, dated April 2000, is ordered by Waste Discharge Requirements Order No. \_\_\_\_\_.

# A. REQUIRED MONITORING REPORTS

Report Due Annual Monitoring Summary Report 1 **Annually** (Section D.5.) 2. Facility Monitoring (Section C.2) Annually 3. Leachate Monitoring (Section C.3) See Table I 4. Response to a Release As necessary (Standard Provisions and Reporting Requirements)

# **B.** REPORTING

The Discharger shall report monitoring data and information as required in this Monitoring and Reporting Program and as required in Order No. \_\_\_\_\_ and the Standard Provisions and Reporting Requirements. Reports which do not comply with the required format will be **REJECTED** and the Discharger shall be deemed to be in noncompliance with the waste discharge requirements. In reporting the monitoring data required by this program, the Discharger shall arrange the data in tabular form so that the date, the constituents, the concentrations, and the units are readily discernible. The data shall be summarized in such a manner so as to illustrate clearly the compliance with waste discharge requirements or the lack thereof. Data shall also be submitted in a digital format acceptable to the Executive Officer.

Each monitoring report shall include a compliance evaluation summary as specified in D. Reporting Requirements, of this Monitoring and Reporting Program.

Field and laboratory tests shall be reported in each monitoring report. Monthly, quarterly, semiannual, and annual monitoring reports shall be submitted to the Regional Board in accordance with the following schedule for the calendar period in which samples were taken or observations made.

| Sampling Frequency | Reporting<br><u>Frequency</u> | Reporting Periods End                              | Report <u>Date Due</u>   |
|--------------------|-------------------------------|--|--|
| Monthly            | Quarterly                     | Last Day of Month                                  | by Annual Schedule   |
| Quarterly          | Quarterly                     | 31 March<br>30 June<br>30 September<br>31 December | by Annual Schedule<br>by Annual Schedule<br>by Annual Schedule<br>by Annual Schedule |
| Semiannually       | Semiannually                  | 30 June<br>31 December                             | by Annual Schedule<br>by Annual Schedule   |
| Annually           | Annually                      | 31 December  | 31 January   |

The Discharger shall submit an **Annual Monitoring Summary Report** to the Regional Board covering the previous monitoring year. The annual report shall contain the information specified in D. Reporting Requirements, of this Monitoring and Reporting Program, and a discussion of compliance with the waste discharge requirements.

The results of **all monitoring** conducted at the site shall be reported to the Regional Board in accordance with the reporting schedule above for the calendar period in which samples were taken or observations made.

# C. MONITORING

# 1. Final Cover Monitoring

The Discharger shall monitor the final cover in accordance with the provisions in the Final Closure Plan and the Post-Closure Maintenance Plan. The pan lysimeter(s) shall be checked for the presence of water on a quarterly basis. The volume of water discovered in the lysimeter(s) shall be reported in the Annual Monitoring Summary Report.

# 2. Facility Monitoring

# a. Facility Inspection

Annually, prior to the anticipated rainy season, but no later than **30 September**, the Discharger shall conduct an inspection of the facility. The inspection shall assess damage to the drainage control system, groundwater monitoring equipment (including wells, etc.), and shall include the Standard Observations contained in section D.3.d. of this Monitoring and Reporting Program. Any necessary construction, maintenance, or repairs shall be completed by **31 October**. By **15 November** of each year, the Discharger shall submit an annual report describing the results of the inspection and the repair measures implemented, including photographs of the problem and the repairs.

# b. Storm Events

The Discharger shall inspect all precipitation, diversion, and drainage facilities for damage **within 7 days** following *major storm events*. Necessary repairs shall be completed **within 30 days** of the inspection. The Discharger shall report any damage and subsequent repairs within 45 days of completion of the repairs, including photographs of the problem and the repairs.

# 3. Leachate Monitoring

Leachate which seeps to the surface from the Unit shall be sampled and analyzed for the constituents listed in Table I upon detection. The quantity of leachate shall be *estimated* and reported as Leachate Flow Rate (in gallons/day).

# D. REPORTING REQUIREMENTS

- 1. The Discharger shall retain records of all monitoring information, including all calibration and maintenance records, all original strip chart recordings of continuous monitoring instrumentation, copies of all reports required by this Order, and records of all data used to complete the application for this Order. Records shall be maintained throughout the post-closure period.
- 2. A transmittal letter explaining the essential points shall accompany each report. At a minimum, the transmittal letter shall identify any violations found since the last report was submitted, and if the violations were corrected. If no violations have occurred since the last submittal, this shall be stated in the transmittal letter. The transmittal letter shall also state that a discussion of any violations found since the last report was submitted, and a description of the actions taken or

planned for correcting those violations, including any references to previously submitted time schedules, is contained in the accompanying report.

- 3. Each monitoring report shall include a compliance evaluation summary. The summary shall contain at least:
  - a. A map or aerial photograph showing the locations of observation stations, monitoring points, and background monitoring points.
  - b. Laboratory statements of results of all analyses evaluating compliance with requirements.
  - c. An evaluation of the effectiveness of the leachate monitoring and control facilities, if appropriate, and of the run-off/run-on control facilities.
  - d. A summary and certification of completion of all **Standard Observations** for the Unit(s), for the perimeter of the Unit, and for the receiving waters. The Standard Observations shall include:
    - 1) For the Unit:
      - a) Evidence of ponded water at any point on the facility (show affected area on map);
      - b) Evidence of odors presence or absence, characterization, source, and distance of travel from source; and
      - c) Evidence of erosion and/or of day-lighted refuse.
    - 2) Along the perimeter of the Unit:
      - Evidence of liquid leaving or entering the Unit, estimated size of affected area, and flow rate (show affected area on map);
      - b) Evidence of odors presence or absence, characterization, source, and distance of travel from source; and
      - c) Evidence of erosion and/or of day-lighted refuse.
- 4. The Discharger shall report by telephone any seepage from the disposal area **immediately** after it is discovered. A written report shall be filed with the Regional Board **within seven days**, containing at least the following information:
  - a. A map showing the location(s) of seepage;

FOR CLOSURE AND POST-CLOSURE MAINTENANCE CITY OF BAKERSFIELD SANITARY LANDFILL KERN COUNTY

- b. An estimate of the flow rate;
- c. A description of the nature of the discharge (e.g., all pertinent observations and analyses);
- d. Verification that samples have been submitted for analyses of the Constituents of Concern and Monitoring Parameters, and an estimated date that the results will be submitted to the Regional Board; and
- Corrective measures underway or proposed, and corresponding time e. schedule.
- 5. The Discharger shall submit an Annual Monitoring Summary Report to the Regional Board covering the reporting period of the previous monitoring year. This report shall contain:
  - Unless otherwise exempted by the Executive Officer, all monitoring a. analytical data obtained during the previous two six-month reporting periods, shall be submitted in tabular form as well as in a digital file format acceptable to the Executive Officer. The Regional Board regards the submittal of data in hard copy and in digital format as "...the form necessary for..." statistical analysis [Title 27 CCR Section 20420(h)], in that this facilitates periodic review by the Regional Board.
  - A comprehensive discussion of the compliance record, and the result of b. any corrective actions taken or planned which may be needed to bring the Discharger into full compliance with the waste discharge requirements.
  - A written summary of the monitoring results, indicating any changes made c. or observed since the previous annual report.
  - An evaluation of the effectiveness of the leachate monitoring/control d. facilities.

The Discharger shall implement the above monitoring program on the effective date of this Program.

### CONSTITUENTS OF CONCERN & APPROVED USEPA ANALYTICAL METHODS

# **Volatile Organic Compounds:**

# **USEPA Method 8260**

Acetone

Acetonitrile (Methyl cyanide)

Acrolein

Acrylonitrile

Allyl chloride (3-Chloropropene)

Benzene

Bromochloromethane (Chlorobromomethane)

Bromodichloromethane (Dibromochloromethane)

Bromoform (Tribromomethane)

Carbon disulfide

Carbon tetrachloride

Chlorobenzene

Chloroethane (Ethyl chloride

Chloroform (Trichloromethane)

Chloroprene

Dibromochloromethane (Chlorodibromomethane)

- 1,2-Dibromo-3-chloropropane (DBCP)
- 1,2-Dibromoethane (Ethylene dribromide; EDB)

o-Dichlorobenzene (1,2-Dichlorobenzene)

m-Dichlorobenzene (1,3-Dichlorobenzene)

p-Dichlorobenzene (1,4-Dichlorobenzene)

trans- 1,4-Dichloro-2-butene

Dichlorodifluoromethane (CFC 12)

- 1,1 -Dichloroethane (Ethylidene chloride)
- 1,2-Dichloroethane (Ethylene dichloride)
- 1,1 -Dichloroethylene (1, 1-Dichloroethene; Vinylidene chloride)

cis-1,2-Dichloroethylene (cis-1,2-Dichloroethene)

trans-1,2-Dichloroethylene (trans-1,2-Dichloroethene)

- 1,2-Dichloropropane (Propylene dichloride)
- 1,3-Dichloropropane (Trimethylene dichloride)
- 2,2-Dichloropropane (Isopropylidene chloride)

1,1 -Dichloropropene

cis- 1,3-Dichloropropene

trans-1,3-Dichloropropene

Ethylbenzene

Ethyl methacrylate

Hexachlorobutadiene

2-Hexanone (Methyl butyl ketone)

Isobutyl alcohol

Methacrylonitrile
